

# AULA CHARDONNAY

Grupo  
COVINAS

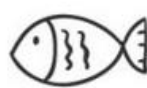

## WINEMAKING

At the end of August, it is usually the ideal time to start the harvest of our chardonnay vineyards, which are located at an altitude of over 700m. The east-west facing orientation and the Mediterranean breezes ensure optimal ripening with good levels of acidity and a greater varietal expression.

## TASTING NOTES

COLOUR	Light yellow.
AROMAS	Tropical fruits and white flowers.
TASTE	Unctuous, fruity and refreshing.

## FOOD PAIRING

Fish

Paella

Chicken  
dishes
